

IlgANN 2025 Industry Symposium

New insights and approach to target the complement system in IgAN

Saturday 20 September 2025, 13:00–14:00 CEST

Cubex Centre Prague, Czech Republic

It is our pleasure to invite you to this Roche-sponsored symposium where an esteemed faculty of leading experts will discuss the critical role of the complement system in driving IgAN progression, delve into the alternative pathway as a therapeutic target and provide insights into the development of new complement inhibitor therapies.

Please join us for this inspiring symposium in Prague.

Prof. Vladimír Tesař

*Professor of Medicine,
Charles University,
Prague, Czech Republic*

Prof. Irene Noronha

*Full Professor of
Medicine and Director
of the Renal Division,
University of São Paulo
Medical School, Brazil*

Dr Hong Zhang

*Director of Renal Division,
Peking University
First Hospital, China*

Prof. Jonathan Barratt

*The Mayer Professor
of Renal Medicine,
University of Leicester,
United Kingdom*

Welcome and introduction (5 min)	Vladimír Tesař (Chair)
Targeting the complement system in IgAN (10 min)	Irene Noronha
Complement biomarkers and beyond (5–10 min)	Hong Zhang
New generation of complement therapeutics on the horizon (10–15 min)	Jonathan Barratt
Q&A and closing remarks	Vladimír Tesař

This symposium is not intended for physicians practising in the USA.

For more details, please contact Martin Neuner-Jehle (martin.neuner-jehle@roche.com).
