

Precision Medicine in IgAN: A Deep Dive Into Biomarkers, Evolving Guidelines, and Therapeutic Frontiers

Join the experts in a case-based session on biomarker-guided diagnosis, evolving guideline updates, and emerging treatment strategies for IgAN.

September 19, 2025 | 1:00 PM - 2:00 PM CEST

Cubex Centre Prague

Na Strži 2097/63 140 00 Prague 4, Room: A1, Prague, Czech Republic

Don't miss this satellite symposium, designed to equip you with the latest insights in precision medicine for IgA nephropathy (IgAN). Through dynamic, case-based discussions led by leading nephrology experts, you'll explore cutting-edge biomarkers, interpret updated clinical guidelines, and evaluate the safety and efficacy of both approved and emerging therapies. Whether you're looking to enhance diagnostic accuracy, tailor treatment strategies, or stay ahead of evolving standards of care, this symposium delivers practical, actionable knowledge you can apply directly to your clinical practice.
